

# Lean Healthcare White Belt

The Lean Healthcare White Belt is a 1-day instructor led program that provides healthcare staff with a basic introduction and awareness of Lean Thinking and the opportunities to apply Lean in their organisation

The program helps to educate and involve all healthcare employees in their organisation's efforts to improve process efficiencies and eliminate waste. The program is an excellent way to train large numbers of staff as part of a change management or awareness initiative for Lean implementation.

## Content

- Introduction to Lean
- Lean Thinking and Principles
- Why healthcare organisations typically implement Lean
- What is waste?
- Benefits of a 5S program

## Program Benefits

Participants achieve the following learning benefits from the program:

- Identify the role that Lean plays as part of a continuous improvement agenda
- Gain a basic understanding about Lean and its guiding principles
- Understand the role that everyone plays in the success of Lean
- Understand how to identify the 7 Lean "Wastes"

## Structure

Relevant case studies and scenarios are provided throughout to provide a context for the topics covered, while participants undertake a Lean role-play game to gain a greater understanding of the principles that underpin the philosophy.

## Program Assessment

A certificate of completion is awarded to all those who attend the course.

## Program Duration

The program is delivered over 1 day.

## Certification Body

The Australian Healthcare and Hospitals Association (AHHA) is the independent membership body and advocate for the Australian healthcare system and a national voice for high quality healthcare in Australia.

LEI Group Australia is proud to partner with the Australian Healthcare and Hospitals Association to prepare healthcare professionals and organisations to increase efficiencies and improve organisational performance through the delivery of a series of Lean Healthcare educational programs at White, Yellow, Green and Black Belts.
